

The Heart Program

Free EKG Screening

Protect the young athletes you know and love with a free screening!

The leading cause of sudden death among young athletes is sudden cardiac death (SCD). Every three days in the U.S., a student athlete dies of SCD. Usually there are no advance signs or symptoms.

Miami Children's Hospital is reaching out to the region's young athletes by offering **free EKG screening** to middle and high school sports participants.

For additional information or if you wish to make an appointment, please call **305-662-8301, option 1** or toll free **1-800-432-6837, ext. 8301, option 1**.

Locations as close as Midtown.
